Objectives and Activities in the Directors' Report:

The objective of the charity is to promote sustainable healthcare in Burkina Faso.

Performance at the Eureka clinic in Bobo Dioulasso continues to improve. The number of consultations per week is increasing steadily and most departments are making a positive contribution to overheads. The exception is the pharmacy which continues to run at a loss. Eureka is obliged to maintain a pharmacy as part of the Operating Licence from the Ministry of Health yet is currently only permitted to make internal sales. As the business continues to grow this loss will of course diminish but it is currently a drag. However, ongoing investments elsewhere and a widening of the offering is contributing to improved financial performance. The decision to make these investments and keep growing the business means that economic breakeven will take longer and we are now targeting to achieve this by the end of 2020.

We are very pleased that three of our Scholarship Students are now working at Eureka and we expect a further two to join the platform in the next twelve months. Having sponsored eight students through their specialisations, we regard this as a very successful programme and perhaps one to visit again in the medium term.

We continue to make progress with strategic fund-raising. Eureka was recently awarded a further €100,000 grant from the Government of La Rioja (following a €140,000 award last year) for ongoing investment in the eye department and we maintain the close working relationship with Fondation Vision Mundi and Vision Aid Overseas that has contributed to this success. We have also been awarded a £20,000 grant from the Angus Lawson Memorial Trust to pilot an eye-screening programme across 3,000 secondary children in Bobo Dioulasso. BHF is co-ordinating this alongside Eureka as implementing partner and should it prove successful we would expect a positive review from the Ministries of Health and Education and an ongoing mandate.

Burkina Health Foundation Limited

The Trustees have determined that a 31 December financial year end is more appropriate for BHF and this was approved by Special Resolution on 9th October 2019. Accordingly, the next set of accounts for the Company will be for a short accounting period 27th June 2019 – 31st December 2019.

Financial Review:

The majority of the donations received this year were again from Vision Mundi as part of their ongoing funding of the ophthalmic scholarship programme that BHF manages on their behalf.

We continue at BHF to maintain a very low overhead, at less than 2% of donations (2018: 1%).
